

ACOUSTICAL PRODUCTS

MICRO PERFORATED PANEL

DESCRIPTION

The micro perforated panel absorber offers a broad band absorption solution, where aesthetics are paramount. The elegant wood finish offered in a variety of veneer species combined with the 0.65mm holes provide a visually appealing product with outstanding acoustic performance. The panel has fiberglass insulation backing with variable thickness depending on the acoustic needs of the space.

TYPICAL APPLICATIONS

Auditoriums &
Assembly Halls

Bars &
Restaurants

Office
Environments

Recording
Studios

KEY ATTRIBUTES

- 01** Complete standard system from one manufacturer, including panels, suspension, clips, and edge options.
- 02** Custom options includes panel configuration, fabric selection, panel lengths, and edge detail.
- 03** Individual panels allow for modular placement and customization.
